

自我介绍

大家好我叫孙国峰毕业于大连外国语大学，2017年9月来到日本冈山大学留学。现就读于山大学自然科学研究科研究生。

研究室有多个国家的研究生和本土的日本学生组成，来到这里就像进了一个大家庭一样，大家互帮互助，一起讨论学术问题。船曳老师给我们安排了详细的学习计划，让我们学习更加系统科学。研究室定期会组织学生BBQ。老师和我们一起侃侃而谈。在研究室的日子，每一天都很快乐。

Self introduction.

Hello, everyone. I am Sun Guofeng, graduated from Dalian Foreign Languages University. I study in Okayama University from September 2017. Now I am a research student in natural science, Okayama University.

Our laboratory is composed of graduate students from a number of countries and native Japanese students. Our laboratory likes a big family which people help each other and discuss academic issues. Professor funabiki arranges a detailed study plan and we can study more scientific system. At the meantime, Our laboratory organizes BBQ regularly. We have a good time in the laboratory.
